

Find the right candidate
from the right data easily
and at your convenience.

ABOUT SEARCH

Source from over 150 million profiles in US resume database with best-in-class semantic search technology. With Search Professional from CareerBuilder our customer have the tools they need to source, find and hire the candidates they need faster than ever before.

RESUMEFLIP

ResumeFlip enables you to quickly and efficiently review candidate resumes. Within ResumeFlip view, users can:

- Toggle between the resume document and user profile information
- Email candidates, forward, print, save and download resumes
- Use our 'Like' feature to take action on upto 25 candidates/resumes at once

SEARCH FEATURES

Ability to quickly screen resumes with ResumeFlip feature

- 20,000 new resumes every day
- Search options to find both active and older passive resumes
- Multi-city searching with relocation
- Ability to see both local candidates and those willing to relocate to your area
- Filtering tools to quickly identify pools of candidates within your search results
- Choice of upto 20 different search criteria with advanced search functionality and 17 different filters on the results screen
- Ability to 'Tag' resumes, recall all candidates with a specific tag, and conduct searches within a specific tag
- Save time in the future by using the Saved Search functionality

RECRUITMENT EDGE

It condenses over 500 million profiles from public web properties into 150 million unique profiles with contact information. This new technology will:

- Help you find even more relevant candidates with 150 million new profiles
- Provide you with more insights on the skills of those candidates

SEARCH PROFESSIONAL EDITION

Find how easy or difficult it will be to source for open positions based upon candidate demographics, job titles and competitive insights into other companies. Talentstream Supply & Demand keeps you ahead of the competition with CareerBuilder Search Professional.
